How Ontario Government Employees Can Recycle Outdated KWIC Indexes

Due to your efforts this past summer, approximately 18,000 obsolete directories were collected for recycling into flower pots and furniture packaging.

This represents close to one third of all books (KWIC Indexes and Government Telephone Directories) used within Ontario government offices.

Congratulations!

Please recycle your old KWIC Indexes by sending them, in bulk, to YOUR OWN MINISTRY MAILROOM through the intergovernmental mail system. Remove any page markers from the books, and, if possible, transport them in the same boxes in which the new books arrived. The books will be centrally collected in the mailrooms. Arrangements will then be made through the Waste Management Program for pickup from each Ministry's mailroom.

If your office is located in QUEEN'S PARK OR ANY OTHER ONTARIO GOVERNMENT OWNED BUILDING in Metro Toronto, please drop your old books into your white newspaper saver bin conveniently located in common areas. The recycler will sort out the books for collection. Watch for the applicable posters in your building.

Should you not have access to either of the above systems, you can send your books in the original container, clearly marked "FOR RECYCLING" to,

Government KWIC Index Recycling
Ministry of Government Services
Government Mail Service
Room 2B-18, Macdonald Block
900 Bay Street
Toronto, Ontario
M7A 1N3

ONLY BOOKS RECEIVED BEFORE FEBRUARY 28, 1991 WILL BE ACCEPTED.

Thank you for protecting our environment by supporting this effort. In order to further increase the recycling potential of this directory, we have discontinued the use of colored paper in favor of white paper throughout this book.

FOR FURTHER RECYCLING INFORMATION, CALL OUR RECYCLING HOTLINE AT (416) 324-3777.

For other inquiries regarding the KWIC Index information, please phone your KWIC Index coordinator (refer to page vii for telephone number).

THE ONTARIO GOVERNMENT

The three major divisions of parliamentary government in Ontario are the Executive, the Legislative and the Judiciary.

Executive: The Queen, represented by the Lieutenant Governor, is the nominal executive and head of state. The Premier and Ministers of the Crown (Cabinet) form the active executive, formulate government policy and administer its programs.

The basic units of the administrative structure headed by the office of the Premier are 28 ministries (e.g., Education, Health, Environment), each responsible to a Minister in Cabinet.

Legislative: The legislative function is the responsibility of the Legislative Assembly composed of elected members, including the Premier and other Ministers. The Assembly performs three main functions: legislative - enacts, amends and repeals legislation; financial - authorizes the imposition of taxes and reviews expenditure estimates; critical-discusses and criticizes policies put forward by the Executive.

Judiciary: The judiciary administers justice by adjudicating civil and criminal disputes through the Ontario courts system constituted by provincial statute. Provincial court judges are appointed provincially by the Lieutenant Governor in Council. County, District and Supreme Court of Ontario judges are appointed federally by the Governor General in Council. Courts administration is the responsibility of the Ministry of the Attorney General.

LEGISLATIVE ASSEMBLY

LEGISLATIVE 1

The Legislative Assembly, commonly called the House, consists of 130 **Members of Provincial Parliament** (MPPs) elected to represent the people in their constituencies. The Assembly performs legislative, financial and critical functions. It considers proposals for **legislation or bills**; enacts, amends and repeals legislation; authorizes the collection of funds from the people of Ontario; and criticizes the policies put forth by the Premier and the Cabinet. As the presiding officer, the Speaker of the Assembly is responsible for both the policy and operations of the Legislature. The Clerk of the Assembly, in the capacity of principal permanent officer, provides the Speaker and MPPs with procedural advice.

Another important feature of the Assembly, designed to enhance the legislative process, is the committee system. Three types of committees, commonly known as Standing Committees, Select Committees and the Committee of the Whole House, review legislation, scrutinize budget estimates, and undertake special studies or investigations.

Standing Committees, composed of Members drawn from each political party, are created by the standing order and given specific areas of jurisdiction. Committees meet while the Legislative Assembly is in session, during adjournments and recesses, and report from time to time on matters referred to them.

Select Committees are ad hoc groups appointed by the Legislative Assembly to inquire into specific issues. A Select Committee is dissolved once its task is completed.

Committee of the Whole House refers to the Legislative Assembly when it meets in the Legislative Chamber to consider matters such as bills after they have received second reading. The Deputy Speaker who is also the Chair of the Committee of the Whole House presides over this committee.

Information on select and standing committees may be obtained from the Committees Branch, Room 1521, Whitney Block, Queen's Park, Toronto M7A 1A2 (963-1300).

Members of Provincial Parliament, **Constituency offices** and Queen's Park addresses are listed below.

This information is accurate as of November 15, 1990. If constituency office address or telephone number is not available, ask operator for Zenith Ontario.

The **Provincial Offences Act** covers the **prosecution** of all provincial offences (e.g. those under the **Highway Traffic Act**) and municipal by-laws, excluding parking infractions. This Act provides a procedure for dealing with minor offences. The person charged may choose

one of three options: a payment out of court, a plea of not guilty, or a plea of guilty with explanation. The Act also provides for proceedings to be brought to **court** for more serious offences. Parking infractions continue to fall under the Summary Convictions Act, for the present.

Inquiries about payment of **parking tags** issued by municipal police should be directed to the police since procedures vary throughout the province. Parking tags issued by the Metro Toronto Police are payable at the municipal office or any bank in the province.

For inquiries on payment of **fin**es following conviction and **driver licence** suspension for non-payment of fines, call the Provincial Court (Criminal Division); in Toronto, call 965-7537.

The Provincial Offences Court holds sittings on a regular basis at approximately 149 locations throughout the province. Addresses are the same as for the Provincial Court (Criminal Division), and can be found under Ontario Courts, Ministry of the Attorney General.

PROVINCIAL COURT (CRIMINAL DIVISION)

ATT GEN 38

DEFAULTED FINES CONTROL CENTRE

60 Queen St. W., Rm. 19

Old City Hall

Toronto M5H 2M4

416-965-9012

The Defaulted Fines Control Centre monitors court orders suspending **driver licences** for non-payment of **fin**es under the **Highway Traffic Act**. Information is provided about the fines and the procedures for clearing suspensions. The Centre does not deal with **traffic** fines for drivers whose licences have not been suspended. For this information, contact the appropriate Provincial Offences Court at the same address as the local Ontario Court (Provincial Division), listed under Ontario Courts, Ministry of the Attorney General.

The Defaulted Fines Control Centre also monitors unpaid **parking tags**. The owner of the car is denied plates until the fines are paid. Information is provided about the fines and procedures for renewing permits.

PROVINCIAL COURT (CRIMINAL DIVISION)

METRO TORONTO FORENSIC SERVICE

ATT GEN 39

1001 Queen St. W.

Toronto M6J 1H4

416-535-8501

The Metro Toronto Forensic Service (**METFORS**) performs **psychiatric** assessments of persons arrested due to alleged **criminal** offences and suspected of being **mentally ill**. Examinations are ordered primarily by the Provincial Court (Criminal Division), and usually conducted prior to bail. The Service also assesses and treats persons who have demonstrated signs of mental illness while in jail awaiting trial. METFORS is funded by the Ministry of the Attorney General; staffed by professionals in the field; and run by a board of representatives from the **Clarke Institute of Psychiatry** and the Ministries of the Attorney General, Health and Correctional Services. While primarily serving courts within the Judicial District of York, METFORS sometimes accepts cases from elsewhere.

PROVINCIAL COURT (FAMILY DIVISION)

ATT GEN 40

Chief Judge's Office
700 Bay St.
Toronto M5G 1Z6
416-965-3214

Provincial Court (Family Division) deals with domestic relations law (custody of and access of **children**, enforcement of Ontario and extra-provincial custody and access orders, **support** orders for spouses, infants and destitute parents, enforcement of support orders made in Ontario and in reciprocating states); child welfare (child protection, secure treatment of children with mental disorders, and **adoption**); review of certain decisions of the Registrar General of Vital Statistics relating to applications for change of **name**; and **young offenders** (persons charged with **criminal** or other federal offences allegedly committed while under 18 years of age).

There is at least one **court** in each county, district or judicial district, except for the Judicial District of Hamilton-Wentworth (see Unified Family Court). For a list of court addresses, see Ontario Courts, Ministry of the Attorney General.

UNIFIED FAMILY COURT

ATT GEN 41

Judicial District of Hamilton-Wentworth
55 Main St. W.
Hamilton L8P 1H4
416-525-1550

The Unified Family Court, Judicial District of Hamilton-Wentworth, was established in 1977, in response to recommendations by the federal and Ontario law reform commissions, as a pilot project for future development in other areas of Ontario. Replacing the former Provincial Court (Family Division) of Hamilton-Wentworth, the Unified Family Court has exclusive, original jurisdiction over family matters as set out in the Courts of Justice Act, 1984, Part III. The court is designed to remedy problems, assumed to be the product of the existing court system, by unifying the exercise of jurisdiction in all **family law** matters. Court objectives relate to the interests of individual families and the state. For families, the system aims to lessen feelings of confusion, decrease costs, reduce delay and inconvenience, and provide a comprehensive, equitable, understandable and durable legal resolution. For the state, the system aims to decrease the court, legal and welfare costs of resolving family disputes; to preserve and strengthen the family by helping spouses accept their responsibilities; and to promote conditions which encourage respect for the law and the courts. Attached to and forming part of the Unified Family Court is a conciliation service, which mediates between parties to resolve issues of custody and access.

ONTARIO COURTS

ATT GEN 42

Ontario is divided into eight territorial divisions called regions for judicial purposes, each headed by a Regional Director and contain a number of administrative areas that parallel county, district or regional municipal boundaries.

A list of **court** offices contained in each region appears below. Court offices are also listed in the blue pages of all telephone directories.

Court names are in the process of being changed from: Supreme, District and Surrogate Courts to Ontario Court (General Division); Provincial Court (Criminal Division and Family Division) to Ontario Court (Provincial Division); Provincial Court (Civil Division) Small Claims Court to Ontario Courts (General Division) Small Claims Court.

MINISTRY OF CITIZENSHIP

77 Bloor St. W., 10th Flr.
Toronto M7A 2R9

The Ministry of Citizenship was created in 1987 to promote a harmonious multicultural, multiracial society-one in which everyone regardless of origin or race, has equal access to Ontario's social, economic and culture benefits.

The Ministry of Citizenship coordinates Ontario's strategy on multiculturalism, working closely with all provincial ministries to launch and monitor initiatives to ensure equality in government policies and programs. Ontario Policy on Race Relations affirms the government's commitment to equal access to services for visible minorities and the Ministry's responsibilities in the area of human rights allow these commitments to be translated into action.

The mandate of the Ministry to ensure access and equality for all citizens in the four areas of multiculturalism, race relations, immigrant settlement and integration, and the Native community development. Through the delivery of services directly to the Ministry's clients-the people of Ontario-and through funding to community based agencies, organizations and institutions, the Ministry of Citizenship is responsible to the equity issues and needs of Ontario's cultural, racial and Native communities.

The Ontario Human Rights Commission reports to the Minister of Citizenship.

MINISTRY OF COMMUNITY AND SOCIAL SERVICES

Hepburn Block, 80 Grosvenor St.

Queen's Park, Toronto M7A 1E9

The Ministry of Community and Social Services, established in 1930 as the Department of Public Welfare, was formed as a result of the Ross Commission on Public Welfare. The Old Age Pensions, Mother's Allowance and Children's Aid branches previously administered by the Provincial Secretary, and the Unemployment Relief Branch from the Department of Labour were amalgamated under the new department. In 1967, the name was changed to the Department of Social and Family Services and, in 1972, it became the Ministry of Community and Social Services.

In 1974, the Ministry acquired the Mental Retardation Program under the Developmental Services Act from the Ministry of Health. The children's services programs were transferred from the Ministries of Health, Correctional Services and the Attorney General in 1977. In November 1984, the new Child and Family Services Act was proclaimed. It eliminates inconsistencies, simplifies the law, addresses new legal issues, and ensures that legislation conforms with the equality provisions of the Charter of Rights and Freedoms.

The current trend is to encourage and support community programs enabling physically and developmentally handicapped persons and elderly citizens to live independently. Ministry-operated and funded programs are moving towards small, community residential settings with local support networks.

Administration of Ministry funded and direct-delivery programs across the province is decentralized to 4 regional and 13 area offices.

The branch monitors the quality of plans of survey through its **Surveys, Mapping and Title Examination Office** by both direct pre-registration examination and post-registration audit and review. The office examines applications for first registration, **condominium** plans, **Boundaries Act** plans and applications under the Certification of Titles Act. The processing of applications for first registration under the Land Titles Act and the Certification of Titles Acts has been regionalized and is being done at each of the Regional Offices listed below and at the Ottawa Land Registry Office.

The branch is responsible for the implementation of system improvements referred to as **POLARIS** (Province of Ontario Land Registration and Information System). Long-term improvements include the automation of the land records index and property title information, and the production of computer-generated property **maps**.

Fifty of the 65 Land Registry Offices provide registration and enquiry services related to the **Personal Property Security Registration System (PPSR)**. **Liens** against personal property (boats, cars) may be registered or prospective buyers may determine whether personal property is free of encumbrances. Fourteen of the Land Registry Offices provide local incorporation services under the Business Corporations Act. The following is a list of five regional offices and 65 **Land Registry Offices** indicating the services provided: Registry (REG), **Land Titles** (LT), Personal Property Security Registration (PPSR), and **Company incorporation** (CO).

MINISTRY OF CORRECTIONAL SERVICES

200 First Ave., W.

North Bay P1B 9M3

The Ministry of Correctional Services, established by the provincial legislature in 1946 as the Department of Reform Institutions, operated facilities for male and female adult and juvenile (under 18) offenders. In 1968, it became the Department of Correctional Services when the province took over responsibility for all county and city jails and passed the Department of Correctional Services Act (consolidating all but the Training Schools Act). In 1972, the name changed to the Ministry of Correctional Services, and probation services were transferred from the Ministry of the Attorney General. Responsibility for juvenile offenders was assumed by the Ministry of Community and Social Services in 1977.

Correctional Services has jurisdiction over adult male and female persons placed on probation, on remand awaiting trial or sentencing, being held for immigration hearings or deportation, awaiting transfer to federal institutions, sentenced to terms of less than two years and released on parole.

Under the Young Offenders Act, Canada, the Ministry holds responsibility for 16 and 17 year-old offenders, up to their 18th birthday.

The Ministry's main objectives are to provide custody and community supervision as directed by the courts and federal and provincial legislation governing correctional services in Ontario; provide information to assist the courts in determining disposition; create programs to motivate offenders towards positive personal and social adjustment; and develop and provide programs for the prevention of crime.

The Ministry of Correctional Services administers the Ministry of Correctional Services Act, 1980.

The Operations Division has two branches, the Offender Programming Branch and the Community Corrections Branch, which provide management, professional and consultative services to both institutional and community correctional programs. As part of its commitment to community corrections, the Operations Division contracts with private community agencies to provide resource centres for selected **adult offenders** and open custody for young offenders.

Jails and Detention Centres provide short-term, secure custody for persons awaiting trial or sentencing, being held for immigration hearings or deportation, serving relatively short or intermittent sentences, and awaiting transfer to other institutions. Programs are geared to the

relatively short-term needs of offenders and focus primarily on basic **educational** upgrading and life skills.

MINISTRY OF ENERGY

56 Wellesley St. W.
Toronto M7A 2B7

An Advisory Committee on Energy, appointed by Order-in-Council in August, 1971, recommended the creation of a separate Ministry of Energy to develop a comprehensive and coordinated energy policy for the Province. At that time, energy matters in Ontario involved nine ministries and 38 major acts. In 1973, a new Ministry was established under the Ministry of Energy Act.

The following groups, each under the direction of an executive coordinator or equivalent, became part of the new Ministry: Energy Technology, Information and Analysis, Legal Services and Conventional Energy. This structure remained until August, 1977, when an Energy Conservation Group was formed. Its functions replaced most of those of the Energy Technology Group, which ceased to exist about a year later. This new group also offered information service to the public. The Information and Analysis Group, which had provided library services and statistical information rather than general public information, was renamed the Strategic Planning and Analysis Group, to avoid confusion and to reflect its changing role.

In October, 1977, the Energy Conservation Group expanded to become the Conservation and Renewable Energy Group. This organization was divided into two groups in 1983.

In February, 1981, the Communications Group was created due to increasing demand for communication services. The staff of the Conservation and Renewable Energy Group's Information Services unit was merged with other communications staff in the Ministry to promote more effective planning and delivery of communication services.

In November, 1984, a major reorganization of the Ministry took place to streamline the organization. Three divisions were created, Policy and Planning, Programs and Technology, and Communication and Management Services.

In August, 1988, the Ministry was organized into the following branches: Policy Development, Liaison and Planning, Programs and Technology, Finance and Administration, Corporate Relations and Legal Services.

In June, 1990, the organization was re-structured. The Ministry is now organized into the following branches/divisions: Policy Development and Coordination Division, Programs and Technology Division, Finance and Administration Branch, Corporate Relations Branch and Legal Services Branch.

Under the Intervenor Funding Act, 1988, the Environmental Assessment Board may, at the request of intervenors, hold a funding hearing to determine if such intervenors should receive funding for participation during a hearing under the Environmental Assessment Act, the Environmental Protection Act, or the Ontario Water Resources Act. Funding is provided by the proponent for which approval of the undertaking is sought. The Act also sets out the criteria for funding eligibility and amends other legislation to enable the Board to award costs at the conclusion of a hearing. Cost awards are not limited to those used by courts.

**ENVIRONMENTAL ASSESSMENT BOARD
ONTARIO WATER RESOURCES ACT**

MOE 54

2300 Yonge St., Ste. 1201
Toronto M4P 1E4
416-323-4806

The Environmental Assessment Board holds public hearings under the Ontario Water Resources Act (**OWRA**) with respect to applications for approval of the construction or extension of sewage works. Hearings are generally required when a **municipality** intends to establish or extend **sewage** works in or into another municipality. If no objection to the proposal is received, a decision may be made without a hearing. Facilities within a single municipality may, but do not necessarily, require a hearing. The Board's decisions are appealable to Cabinet or, on a question of law, to the Divisional Court.

The Board of Negotiation provides a mechanism for negotiating claims concerning contaminant damage to property. Under the Environmental Protection Act (**EPA**) an investigation may determine that the damage or injury to vegetation or livestock is caused by a contaminant and that the injury will result in economic loss. If this is the case and the parties involved are unable to come to an agreement regarding damages, the Board of Negotiation can be called upon to help negotiate a settlement. The Board of Negotiation meets with both parties and in an informal manner proceeds to negotiate a settlement of claim. The procedure is without prejudice of any subsequent legal proceedings.

Under the Consolidated Hearings Act (**CHA**), the **Environmental Assessment Board** holds public hearings in conjunction with the Ontario Municipal Board. This occurs when a proposal requires more than one tribunal hearing under the Acts set out in the Schedule to

the Consolidated Hearings Act, 1981. The Hearings Registrar must receive written notice from the proponent, specifying the nature of the undertaking, required hearings, and governing Acts. The matter is then referred to the Chairmen of the two boards, who establish a joint board for the hearing. The board's decision can be varied or rescinded only by the Lieutenant-Governor-in-Council or, on a question of law, may be appealed to the Divisional Court.

The Ontario Waste Management Corporation (**OWMC**) was established in 1981 by the Ontario Government to develop and implement a liquid **industrial** and **hazardous wastes** management system for the province. OWMC also provides information assistance to industry in the reduction, **recycling** and reuse of wastes, and plans to implement a program to enhance the collection and transfer of waste in the province.

A five-phase facilities development process was designed to address the complex issues surrounding the management of Ontario's hazardous wastes. In addition to analyzing the characteristics, quantities and sources of hazardous wastes generated in Ontario, this process consisted of four other major activities: determine deficiency of treatment and disposal capacity in the province; evaluate and select the best available technologies for the treatment and disposal of Ontario's wastes; conduct a step-by step procedure for the selection of a preferred site or sites; and evaluate the impact the proposed facility will have on the site and the surrounding environment.

In September 1985, the Corporation selected a site in the Township of West Lincoln, Regional Municipality of Niagara, after evaluating more than 150 possible locations. This decision was the result of a three and a half year site selection process and was followed by a detailed site and site vicinity examination to confirm that the West Lincoln site was a suitable location. OWMC proposes to build and operate a modern industrial waste treatment and disposal facility on the site.

A draft Environmental Assessment (EA) was submitted to the Ministry of the Environment in February 1988 and circulated to other government ministries, agencies and the public for their review. The final EA was reviewed once again by all government ministries and agencies and a Notice of Completion was issued to OWMC by the Ministry of the Environment in September 1989. A formal hearing before a Joint Board under the Consolidated Hearings Act began in February, 1990.

Created by the Public Health Act of 1882 as the first permanent health care administrative body in the province, the Ministry of Health was originally known as the Provincial Board of Health of Ontario. In 1919, it was transferred from the Department of the Provincial Secretary to the Department of Labour under the Minister of Health and Labour. The Provincial Board became the Department of Health in 1925. In 1930, the Department of Hospitals was established under the direction of the first Minister of Health. Hospitals, sanatoria and mental institutions previously had reported to the Provincial Secretary. The Department of Hospitals became a division of the Department of Health in 1934. Insured hospital services and insured physicians' services, introduced in 1959 and 1966 respectively, were combined under the Ontario Health Insurance Plan (OHIP) in 1972. The Department of Health became the Ministry of Health in 1971.

The Ministry is responsible for ensuring the good health of the Ontario public by administering such programs as health insurance, care for the mentally ill, extended health care, home care services, regulation of hospitals, nursing homes and drug benefits. RESIDENTIAL INTENSIFICATION

HOUSING 6

777 Bay St., 2nd Flr.
Toronto M5G 2E5
416-585-6520

The Ministry of Housing, in cooperation with the Ministry of Municipal Affairs, has developed a series of programs to assist **municipalities** in providing an increased range of **housing** choices, in existing areas through residential intensification and in new development.

These include the Municipal Housing Statement, Community Planning Grants and PRIDE (Program for Renewal, Improvement, Development and Economic Revitalization) programs.

These programs encourage municipalities to consider the potential needs and demand for new housing, examine local land use regulations and, improve community services and facilities to support more housing. The programs were revised to provide funding to municipalities in order to meet the objectives of the Housing Policy Statement.

The **Local Grant Program** increases community awareness and develops local support for increasing housing choices opportunities through local campaigns, educational programs, workshops, and other promotional ideas. Funding is used to cover administration, consultant time, production of brochures and reports, and does not normally exceed \$50,000.

The **Home Planning Advisory Service** offers **grants** of up to \$30,000 per year to municipalities to establish resource centres. These centres offer advice and information to individuals within the community who wish to create accessory apartments or other forms of small-scale residential intensification.

PORTABLE LIVING UNITS FOR SENIORS

HOUSING 7

777 Bay St., 2nd Flr.
Toronto M5G 2E5
416-585-6514

An innovative approach to **seniors' housing** that originated in Australia, the so-called "granny flat" is a detached housing unit which can be placed in the yard of an existing family home. Intended for occupancy by an elderly parent or parents of the owner of the main house and property, the self-contained units are designed to be temporary and portable, so that they can be removed and relocated when no longer required.

To test the applicability of this housing approach, the Ministry has placed 12 of these units through its Portable Living Units for Seniors (**PLUS**) demonstration project. The Regional Municipalities of Ottawa-Carleton, Sudbury and the City of Waterloo each had 4 units, owned and operated by the province.

An evaluation of the demonstration project has been completed and it has been determined that "granny flats" are a feasible way of providing housing for seniors. The Ministry is now

developing legislation to enable municipalities to regulate the use of "granny flats". For a copy of the summary report on the PLUS project, please call the above office.

The offices, which are located in Hamilton, London, Ottawa, Toronto, Sudbury and Thunder Bay, also work with non-profit housing corporations, cooperative groups and municipalities in the delivery of housing programs.

The RHP offices have authority to approve non-profit groups' program loans and budgets, housing authority budgets, and emergency repairs to Ontario Housing Corporation (OHC) projects. They may also award tenders above financial limits set for housing authorities.

OHC's housing authorities administer the province's **rent**-geared-to-income **housing** dealing with local issues within the framework of management agreements and general policy directives. OHC units accommodate families, **senior citizens**, **disabled** people, low-income single persons and childless couples. Persons with disabilities must arrange for the provision of support services required to carry out essential daily functions. A priority system is used to rank applications according to the degree of need. The rent is calculated on a scale that is geared to gross household income. Assaulted women applying for permanent subsidized housing are eligible for special consideration.

HOMES NOW, a major non-profit **housing** initiative funded solely by the province, is designed to allow community-based sponsoring groups to create reasonably-priced housing. Eligible sponsors are municipal and private non-profit corporations, non-profit housing cooperatives, churches, service clubs and other associations.

About 70 per cent of the units created are allocated to people who cannot afford suitable accommodation. They pay **rents** based on their incomes (about 25 per cent of gross income) rather than on the size or type of units they require.

FEDERAL-PROVINCIAL NON-PROFIT HOUSING PROGRAM is another source of moderate-cost housing for families, **senior citizens**, childless couples, single persons and **persons with disabilities**. **Subsidies are provided by the federal and provincial governments.**

The above programs are administered by this Ministry's Regional Housing Programs Offices (See Housing Field Operations.)

416-585-6430

Ontario Home Renewal Program (**OHRP**) helps owner-occupants of residential properties to fix up their **homes** to standards developed locally and agreed to by the Ministry. The program is aimed at rehabilitating sub-standard homes, with the emphasis on faulty structural and sanitary conditions, as well as the upgrading of plumbing, insulation, heating and electrical systems.

Loans of up to \$7,500 are made to eligible owner-occupants who wish to bring their homes up to standard. A portion of a loan may be forgiven depending on the recipient's income. The current maximum annual qualifying family income, after allowable deductions is \$21,000.

Detailed information and application forms are available from local **municipalities** taking part in the Ontario Home Renewal Program (OHRP). In areas that are not situated within existing municipal boundaries, assistance is provided through the Ministry of Northern Development and Mines Field Offices (see Regional and Community Development Branch).

The Ontario Housing Corporation (OHC) and its local housing authorities work closely with the private sector in making suitable rental accommodation available for households who pay **rents** according to their incomes.

Under the Rent Supplement Program, OHC pays landlords the difference between the tenants' geared-to-income rents and the full rental rate negotiated between OHC (or the local housing authority) and the landlords.

Prospective **tenants** are chosen from the local **housing** priority list for rent-geared-to-income housing. The landlord meets with local housing authority staff to discuss applications from

prospective tenants. The applicant is then advised of the availability of the unit by the local housing authority, and leasing arrangements are made between the landlord and the prospective tenant.

The tenant signs a lease with the landlord who is responsible for the normal landlord/tenant relationships, such as rent collection, maintenance, repairs and services normally offered to all tenants in the building.

The Convert-to-Rent program is designed to encourage the creation of moderate-cost market rental apartments, primarily through the conversion of non-residential buildings, by offering interest-free loans.

The program has been expanded to include **loan** assistance for the production of hostel-type **accommodation** as well as new rental housing within single-family accommodations. Special additional loans are available for units that are made accessible to **disabled persons**.

Assistance is in the form of 15-year interest-free loans of up to \$7,000 per unit. An additional \$5,000 per unit is available for units modified for disabled persons

Vacant factories, schools, warehouses and space over retail stores and offices are eligible for conversion into apartments. Construction of new rental housing or a combination of conversion and construction can occur on non-residential sites.

To make better use of existing facilities, space in residential complexes that is not used for shelter, such as garage and storage areas, may be converted. Interest-free loans are also available for building new rental units onto existing housing projects or residential sites. Participants in multi-unit projects are required to offer up to 25 per cent of their units for use by the local housing authority responsible for managing assisted housing in the community.

The Convert-to-Rent program is administered through the Ministry's Regional Housing Programs Offices (see Housing Field Operations).

The Ministry offers study grants and technical assistance to help municipalities prepare or update their housing statements.

A **Municipal Housing Statement (MHS)** defines a municipality's housing requirements and policy directions. It consists of two major components: a housing market analysis and the basis of a housing strategy. Housing statements also examine issues affecting maintenance of housing, such as housing renewal, quality of housing, energy efficiency, and potential for intensification of existing building stock.

When endorsed by a municipal council and approved by the Ministry, a housing statement can form the basis of a **municipality's** request for federal and provincial assistance with housing programs.

The Municipal Housing Statement Program is administered by this Ministry's Regional Housing Programs Offices (see Housing Field Operations).

Grants of up to \$20,000 are being made to **municipalities** where the population is at least 10,000 or more, and the rental stock makes up at least 25 per cent of the total housing. The one time grant may cover up to 100% of eligible costs including those associated with project staff, consultants and the development of computer software.

Aided by comprehensive profiles of the rental accommodation within their boundaries, municipalities will be able to plan for their future rental housing, and benefit from any available government assistance, such as support for the upgrading of older rental stock.

Home sharing is a living arrangement involving two or more unrelated persons who share a family house or apartment. Each has his or her own private space and shares some common areas such as the living room and kitchen.

Through its Home Sharing Program, the Ministry is co-sponsoring the development of municipal services to match together persons who are seeking and providing accommodation. These services go beyond those of a typical housing registry or referral agency. Counselling and follow-up assistance is an integral part of the shared housing approach.

A variety of client groups are served under this program. Seniors, single parents, students, newcomers to Canada, and singles in general have benefitted from the Home Sharing Program.

The Ministry is currently funding a total of 17 home sharing projects located in Metropolitan Toronto, the regions of Hamilton, Niagara, Ottawa-Carleton, Sudbury, and Waterloo and York, and the cities of Peterborough, London and North Bay.

The Ministry of Housing encourages homeowners to become landlords through conversion of extra space to accessory apartments. Studies have indicated that small landlords require improved **business** skills.

The Successful Landlord Program develops **education** and information programs to assist **landlords** in managing their properties more effectively.

The Successful Landlord, a 5 part **television** series developed to provide information on getting into real estate; record keeping, acquisition and financing; good property management; landlord and the law; renovations and rehabilitation, is available on a rental basis to schools, libraries, and non-profit institutions through TVOntario's VIP service (416-484-2637 or toll-free 1-800-268-8840 ext. 2637).

The Rental Housing Protection Program, administers the **Rental Housing Protection Act**, 1989.

Certain activities which reduce the stock of rental **housing** in larger centres are restricted by the Act. **Municipal** councils are required to approve proposals to convert, demolish, renovate, sever into individual ownership or otherwise change the use of rental housing. Tenants may not be evicted for these activities until municipal approval is obtained. Controls over condominium conversion apply to all rental residential properties in the province.

The program provides advice on the Act to municipalities and the general public and undertakes enquiries on alleged violations. The Rental Housing Protection Act brochure is available to the general public.

ONTARIO'S RENT REGISTRY**

HOUSING 28

415 Yonge St., 19th Flr.
Toronto M5B 2E7
416-963-3624

As part of the **Residential Rent Regulation Act**, 1986, a province-wide Rent Registry has been established to record the maximum **rent** for private rental residential units. This process involves annual updating of the rents filed by landlords in accordance with the rent review guideline or as a result of rent review orders.

Landlords were required to register complexes (other than boarding houses) with 7 units or more by May 1, 1987. **Registration** of complexes with 6 units or less will be required at a later

date, but may be performed earlier. The rent to be filed is generally the rent charged on July 1, 1985.

The Registry records, in its computer system, the "rent filed by landlord" and any recent rent review orders. The landlord and tenants are notified, and may apply to local Rent Review offices to correct, dispute or certify the legality of the registered rent.

The Registry ensures compliance with registration requirements, investigates registered and current rents, and prosecutes offences. It also provides support to the Rent Review Services Branch in computer systems, public education and staff training.

Information recorded in the Rent Registry is available from the local Rent Review office serving the area where the complex is located. (See listing under Rent Review Programs).

Ministry of Intergovernmental Affairs Act

MINISTRY OF LABOUR

400 University Ave.
Toronto M7A 1T7

In 1882, the Ontario Government established the Bureau of Industry under the Department of Agriculture. In 1900, a Bureau of Labour came into being, and labour affairs were transferred from the Department of Agriculture to Public Works. The Bureau was replaced in 1916 by the Trades and Labour Branch, still under Public Works. In April 1919, Bill 169 brought all labour matters under the new Department of Labour. It was renamed the Ministry of Labour in 1970, when the Department of Labour Act was repealed and replaced by the Ministry of Labour Act.

The Ministry of Labour serves employees and employers by promoting sound industrial relations, safe and healthy working conditions and equality of treatment and opportunity in employment. Programs are concerned with the rights and responsibilities of the individual worker; management and labour; and health and safety in the work place. The Ministry is assisted by a range of specialized agencies, boards and commissions, including the Workers' Compensation Board, the Ontario Labour Relations Board, the Advisory Council on Occupational Health and Occupational Safety, the Workers' Compensation Appeals Tribunal, the Public Service Appeal Boards, the Industrial Disease Standards Panel, the Pay Equity Commission and the Health and Safety Agency.

The branch is responsible for the administration and enforcement of the **Employment Standards Act**, **Industrial Standards Act**, **Employment Agencies Act**, and the Ontario Government Fair Wage Schedules.

The Employment Standards Act provides for minimum terms and conditions of **employment**, called employment standards. It sets out the maximum number of hours which can be worked in the day or week; creates a minimum **wage**; requires overtime **pay** of at least one and one-half times the employee's regular rate; and establishes paid public **holidays** and **vacations** with pay. The Act also requires equal pay for equal work; prohibits discrimination on the basis of sex, age or marital status in employer-provided benefit plans; institutes an entitlement to **pregnancy leave**; forbids lie detector testing; obligates an employer to provide notice of termination or pay in lieu thereof; in certain cases, imposes a separate liability for severance pay; and permits retail store workers to refuse Sunday work under particular circumstances. For information on employment standards, contact the offices listed below.

Under the Industrial Standards Act, employees and employers may jointly request a schedule of **working conditions** for their particular industry. The schedule must be prepared and accepted by both groups and approved by the Ministry, in order to become the standard for that industry or trade in a designated zone. Any properly defined industry may take advantage of the legislation.

The **Fair Wage Schedule** on government contracts ensures that employees working on government projects in the construction, building cleaning and security guard industries receive fair **labour** rates. Contractors are offered a measure of protection from unfair competition based on labour costs when bidding on government contracts. Such contracts contain wage and labour conditions which are applicable to the zone where the work is being carried out, and which must be adhered to by the contractor(s).

The Employment Agencies Act provides for the licencing and regulation of employment agencies in Ontario, with respect to dealings with **job** applicants who use their services to obtain employment. All agencies engaged in "permanent" placement must apply and qualify for a **licence** before undertaking any recruitment activity. For information on any of the above three programs, call 326-7009 or dial toll-free 1-800-387-2965.

The section's activities involve the construction and maintenance of access roads and bridges to facilitate management and utilization of the province's natural resources on Crown lands. The section is responsible for coordination of the access roads component of various programs, such as the **Canada Ontario Forest Resource Development Agreement** (COFRDA) and **Northern Ontario Resources Transportation Committee** (NORTC). The statute which pertains most to resource access is the **Public Lands Act** (Part II). For

The Public Lands Section administers the **Public Lands Act**, which is the statutory authority for managing and disposing of rights in **Crown (public) lands**, and the **Beds of Navigable Waters Act**.

Public land management involves custodianship and protection of the 87 per cent of Ontario that is Crown land, outside of provincial parks. The section controls land uses and users (e.g., use as cottage lots; **shoreline** use such as installation of **docks** and **boathouses**; commercial, residential and **agricultural** use) and protects land from adverse claims, littering and abuse. In **unorganized territories**, the section provides public garbage disposal facilities and controls development on private lands.

Public land disposition is the granting of rights in Crown land to individuals or corporations for purposes such as cottaging, farming, and commercial or industrial uses, e.g., **water** power. These dispositions are based upon market value as determined by **appraisal**. Crown land needs of other ministries and governments are met through transfer of administration and control of the required sites.

A planning process precedes disposition of Crown lands. For example, **lake** planning is done before **cottage** lots are selected and developed. Public land may be granted for short terms (by various types of leasehold) or permanently (by freehold grant).

The **Land Acquisition Program** ensures the orderly purchase of private **lands** required for various Ministry functions. The section assists in setting acquisition priorities, oversees and approves purchases, and maintains a computerized **statistical** control and data bank of all acquisition proposals. Technical real estate-related assistance, analysis and studies are provided to the various branches and levels of the Ministry, as well as related public and private agencies.

The section gives direction to the 8 regions and 47 districts which comprise the Ministry's Field Organization, and advises the Minister and senior management on land-related matters.

The Aggregate Resources Section is responsible for the management of Ontario's **aggregate** resources through the Ministry's regional and district offices. Under the **Aggregate Resources Act (ARA)**, over 2,600 pits and quarries are licenced, and over 200 temporary wayside **permits** are issued each year. The sites, located predominantly in southern Ontario, extract sand, gravel, shale, stone and other nonmetallic **minerals** for industrial and construction use. In addition, over 2,000 pits located on Crown land, mainly in northern Ontario, are administered under the Aggregate Permit provisions of the ARA. The Ministry's district offices administer this Act through public and agency review and liaison, for the mutual benefit of all interested parties.

Management of aggregate resources is carried out through resource planning under the Provincial **Mineral Aggregate Resources Policy Statement (MARPS)**, policy formulation and development, administration of legislation, rehabilitation studies, and other related research. The section provides interpretation and advice on legislation, policy and rehabilitation to industry, other agencies and the public, as well as, support to field staff.

Pits and Quarries Inspectors are designated Ministry personnel assigned to field offices responsible for administering and enforcing the ARA and its regulations. Site inspections are routinely performed from district offices on all licensed and wayside operations.

FIELD ORGANIZATION

FIELD ORGANIZATION

MNR 33

The Ministry of Natural Resources is organized functionally and geographically so that operational decision-making is as close as possible to the program delivery level. For administrative purposes, Ontario is divided into eight regions and 47 districts. The district managers, regional directors and two field Assistant Deputy Ministers serve the public and local area interests by implementing the Ministry's Land Management, Outdoor Recreation and Forest Resources programs (described separately). These programs cover minerals management, fish and wildlife, forest management, public lands and waters, provincial parks, and fuel and industrial minerals management.

The main thrust of program delivery is in the Ministry's district offices, where management and use of natural resources takes place with consideration for local requirements. District managers and staff prepare local program strategies (e.g. land use planning), and integrate individual resource plans that are consistent with the district strategy. Each district manager is responsible to the appropriate regional director for all activities assigned to the district.

Regional offices are organized into functional units headed by specialists responsible for providing advice and support to the districts. In some instances, such as conservation activities, engineering and administrative services, the regional office is also the delivery point for Ministry programs.

The principal role of the regional director and staff is to direct and coordinate district activities by establishing regional priorities and allocating appropriate resources; setting program standards, and auditing to ensure that standards are met; developing and overseeing implementation of training programs; and providing specialized advice and support services. In addition, the regional director and staff recommend annual work plans to the Assistant Deputy Ministers, and identify areas where policy is required or needs to be modified.

Program management, coordination of policy, and delivery of services across Northern and Southern Ontario are the responsibility of two field Assistant Deputy Ministers. They convey

the opinions of field staff to the Deputy Minister through their membership on senior management committees.

For the locations of regional, district and other offices, see the following entries: Field Organization, Northern Ontario, and Field Organization, Southern Ontario.

The office investigates inquiries regarding unsafe or uncontrolled flowing wells and brine spills. Historical records of geophysical logs and samples of petroleum wells previously drilled in Ontario are available to the public from the Petroleum Resources Section, 659 Exeter Rd., London (519-661-2796). Inquiries regarding specific wells may be directed to Petroleum Resources Inspectors at the Simcoe and Chatham district offices, listed under the Ministry's Field Organization, Southern Ontario entry.

MINISTRY OF NORTHERN DEVELOPMENT AND MINES

159 Cedar St.

Sudbury P3E 6A5

The Ministry of Northern Development and Mines was established in November, 1985 from the former Ministry of Northern Affairs and the Division of Mines and Minerals (except aggregates), which was transferred from the Ministry of Natural Resources.

The Ministry's primary mandate is two-fold: to meet the special needs of Northern Ontario by encouraging its economic and social development and coordinating other ministries' northern policies and programs; and to promote and regulate the development and use of the province's mineral resources.

The Ministry consists of three divisions: the Corporate Services Division, the Northern Development and Transportation Division and the Mines and Minerals Division.

A network of Northern Development Offices, located in some 30 communities throughout Northern Ontario, provides information and assistance to individuals dealing with provincial government ministries, and works with local people, communities, and other government agencies to identify, develop and initiate a wide variety of local social and economic development projects.

Three regional offices of the Mines and Minerals Division administer a network of 15 Resident Geologist offices, seven Drill Core Libraries, nine Mining Recorder offices and the Temiskaming Testing Laboratory.

Two Agencies report to the Ministry of Northern Development and Mines: the Northern Ontario Heritage Fund Corporation is a \$360 million government initiative with a mandate to assist small businesses, single-industry communities, new technology and special projects; the Ontario Northland Transportation Commission is a development agency which operates rail, bus, air and marine service in Northern Ontario.

NORTHERN DEVELOPMENT AND TRANSPORTATION DIVISION**NORTHERN DEVELOPMENT OFFICES**

NDM 10

The Northern Development Offices are a network of 28 "storefront" offices, each staffed by an officer and clerical assistant, located in communities throughout Northern Ontario. The Northern Development Officers, who make regular visits to approximately 40 satellite

communities, act as contact points for government and attempt to solve problems for people removed from service points. In many cases, an Officer's task is to function as a coordinator; in others, it is to point the client to the appropriate government contact. Responsibilities include serving as an official agent for other ministries' programs and as the central reference point for federal, provincial and municipal departments, ministries, or agencies.

The Northern Development Offices are linked by remote copiers (fax) machines to speed the flow of information. They remain in contact with Toronto based agencies to ensure that they are current with all government initiatives.

Northern Development Officers assist unincorporated communities (communities with no municipal government under the Municipal Act), which are unique to Northern Ontario, in establishing **Local Services Boards**. These Boards are legally constituted bodies of members elected to act on behalf of the residents to ensure provision of basic services such as water supply, fire protection, sewage disposal, street lighting, garbage collection and recreational programs. Establishment of a Local Services Board is optional, as are the services it may choose to offer. Communities which raise half the budgeted cost are eligible for operational **subsidies** from the Ministry.

The Northern Development Officers administer both the **Unincorporated Communities Capital Assistance Program (UCCAP)** and the **Supplementary Northern Assistance Program (SNAP)**. UCCAP assists to establish basic services in unincorporated communities while SNAP is designed to improve the quality of life in Northern Ontario by increasing awareness of health, social, art and culture services.

Northern Development Officers are frequently requested to collect data to facilitate the planning process of the Ministry.

The nearest Northern Development Officer can be reached at the offices listed below and from outlying communities through Northern Ontario by dialing the operator and asking for Zenith 33160.

REGIONAL AND COMMUNITY DEVELOPMENT

NDM 11

Regional and Community Development offices are located in Sault Ste. Marie, Sudbury, Thunder Bay, Timmins and Kenora (addresses listed below). These offices work with northern communities and other ministries in planning development strategies to improve conditions and respond to local and regional needs throughout **Northern Ontario**. The Northeast region operates a regional office in Sault Ste Marie and area offices in Timmins for the Highway 11 corridor and Sudbury for the Highway 17 corridor. Operationally, there are three main areas of interest: Northern **economic** development, Northern **transportation** development and Northern **community** services development.

Regional economic development is stimulated through research, strengthening of industrial activity, promotion of tourism and expansion of agriculture. Funds are also made available to encourage resource development. Scientific studies, experimental hydro-electric and solar heating projects, and alternative or novel energy recovery programs are undertaken.

Community activities include **financial assistance** for construction of water mains and sewage systems, and enhancement of tourism infrastructure. Special assistance is provided for communities undergoing severe economic dislocation or unusually rapid growth. Through the Regional and Community Development offices, the Ministry also implements the **Northern Community Economic Development Program**, offering financial assistance for studies and seminars, publication of promotional materials, and professional staff support for the investigation of new local economic development opportunities. The program provides financial assistance to mid-sized municipalities for the establishment and operation of **Municipal Economic Development Agencies (MEDA)**.

The **Northern Roads Program** establishes priorities and provides capital funding to the Ministry of Transportation for ongoing rehabilitation and selective expansion and improvement of the 9,800 km Northern Highway system. Construction of new roads to facilitate economic development is funded through the **Northern Priority Roads Program**. The **Northern Ontario Resources Transportation Committee (NORTC)** assists the private sector in providing access for resource-based enterprises, and develops Ontario's winter road and trail program to access remote Northern Indian settlements. Capital funding is provided to the Ministry of Natural Resources through the **Resource Access Roads Program** to construct forest access roads. The **Municipal Roads Program** provides funding to municipalities for the construction of local roads. The **Remote Airport Program** sets priorities and offers full funding to the Ministry of Transportation for capital **construction** of airports in communities north of the 51 degree latitude. The **Community Airport Program** furnishes capital funding to assist Northern communities with the development of municipal airports. Northern rail, ferry and air services are provided by the Ministry of Northern Development and Mines through its agent, the Ontario Northland Transportation Commission.

The Ministry contributes funds for a broad range of social and **health** services, such as capital assistance for medical and dental clinics, and **bursaries** for medical and **dental** students, **physiotherapists** and **speech pathologists**. The Regional Offices also participate in the delivery of the **Extended Care Capital Assistance Program (EldCap)**.

Northern Development Councils provide advice to the Government of Ontario through the Ministry of Northern Development and Mines, the Cabinet Committee on Northern Development, and other ministers and ministries, where appropriate, on economic issues of regional concern to Northern Ontario.

The Ministry of Northern Development and Mines takes a keen interest in improving the quality of life and, therefore, promotes the arts and undertakes cultural initiatives as opportunities arise.

The Ministry introduced a **Supplementary Northern Assistance Program** to facilitate the delivery of arts, cultural, health and social activities by non-profit/volunteer groups in Northern Ontario.

**POLICY AND PROGRAM
 DEVELOPMENT BRANCH**

NDM 12

159 Cedar St., 5th Flr.
 Sudbury P3E 6A5
 705-670-7151

The branch provides a policy and program development, evaluation and advisory service to the Northern Development and Transportation Division. Other activities include: managing the division's planning processes; developing and maintaining its information system; and providing in-depth analysis and advice on regional and community economic and social development opportunities, issues and concerns.

MINES AND MINERALS DIVISION

MINERAL DEVELOPMENT AND LANDS BRANCH

NDM 13

159 Cedar St., 4th Flr.
 Sudbury P3E 6A5
 705-670-7250

This branch develops policy, standards, guidelines, and legislation to maintain an optimum level of **mineral** production in Ontario. Market analysis, transportation studies, processing and exploration developments, and national and international trade considerations are part of the broad spectrum of research carried out on **metallic**, non-metallic, industrial and mineable fuel minerals. The **statistics** group conducts an annual census of all mineral operations in Ontario, including development, mining, milling and smelting for economic analysis and for use by the public.

MINING LANDS SECTION

NDM 14

159 Cedar St., 4th Flr.
Sudbury P3E 6A5
705-670-7264

The Mining Lands Section is responsible for coordinating the Provincial Mining Lands Program, and developing policy and legislation regarding **mineral** rights on **Crown lands**. Through the **Mining Act**, this section ensures that mineral rights are acquired and maintained in an orderly and equitable manner, so that the economic and social benefits of mineral production may continue to accrue to Ontario residents. Initial mineral rights are acquired through **claim staking** or the granting of special **Exploratory Licences of Occupation**. Once specified amounts of exploration or development work have been completed, **leases** are granted; following substantial production, applications for **patents** may be submitted.

Nine Mining Divisions, each administered by a Mining Recorder, coordinate field delivery of the program. The Mining Recorder maintains a register of recorded **mining** claims, assessment work, and information related to mineral rights, and provides a hearings process for disputes regarding mining claims. The Toronto office assesses technical submissions for credit toward maintaining claims in good standing.

The Mining Recorders are located at the Mining Division offices listed under the Field Organization entry.

MINING AND LANDS COMMISSIONER

NDM 15

Box 330
700 Bay St., 24th Flr.
Toronto M5G 1Z6
416-965-1824

The Commissioner, appointed by the Lieutenant Governor in Council, is a judicial and administrative officer of the Ministry of Natural Resources who presides over a tribunal with jurisdiction similar to that of a trial court. Hearings of appeal are held under the authority of the **Mining Act**, the Conservation Authorities Act, the Lakes and Rivers Improvement Act, the Beach Protection Act, and the Mining Tax Act. Mining-related hearings frequently result from appeals pursuant to mining claim dispute judgements rendered by the Mining Recorders. Other judgements include granting extensions of time for assessment work, granting relief from forfeiture of claims, revoking prospectors' licences, and awarding compensation for surface rights damage. Hearings are held in local courthouses, whenever possible. Further information about appeals and other applications may be obtained from the Mining Recorder Offices, listed under the Field Organization entry, or through the Commissioner's office at the above address.

Fax 416-963-3278

The Ontario Geological Survey provides Geoscience information on provincial **geology** and **mineral** resources to encourage exploration, provide a basis for **land-use planning**, and aid development of mineral resource policies. Activities include: geological, geophysical, and geochemical **surveys**; mineral deposit studies; geochronology studies; development of new exploration techniques; and presentation of classes and lectures on minerals and **rocks**. The Geoscience Laboratories (965-1337) provide identification, chemical analyses, and assays of

mineral, rock and ore samples. The branch administers the Ontario **Geoscience Research Grants Program** (965-1546) to aid applied geoscience **research** at Ontario universities.

Geoscience Information Services provides research facilities for Ministry staff, the **mining** industry, and the general public. The **library** (965-1352) contains publications on geology, mining and mineral resources. Its holdings include: reports of the Ontario Geological Survey from 1891, the Geological Survey of Canada from 1845, other provincial geological surveys, the U.S. Geological Survey and some U.S. States; reports and maps for Precambrian regions of the world; selected texts on geochemistry, geophysics, engineering geology, mineral economics and related topics. Special indexes, bibliographies and abstracts enable users to access the collection. The library subscribes to over 400 journals and newspapers, and a large collection of geological and aeromagnetic **maps** covering Ontario. Photocopies are provided at a nominal charge. The Assessment Files Office maintains files and computer-based geoscience, mineral deposit and rock chemical databases. The Geoscience Information Office (965-0190) answers general queries from the public, supplies brochures and pamphlets on the geology and mineral resources of Ontario, and maintains the mailing list of OGS **publications**.

FIELD ORGANIZATION

NDM 17

Three Regional Offices ensure that mines and minerals services are readily available throughout the province. A network of field offices includes Mining Recorders, Resident Geologists, Drill Core Libraries, Mining Development Coordinators and Regional Minerals Specialists.

Field offices provide local consultative services relating to mineral resources to government, industry and the public. Resident Geologist Offices maintain a library and offer information on the geology and mineral deposits of their district. Mining Recorders administer the regulations of the Mining Act and serve those seeking information about the status of mineral lands. There are 16 geological field offices and nine mining recorder offices that report to the Ministry of Northern Development and Mines.

Otherwise, the grant or tax credit is 25% of the investment.

The **Employee Share Ownership Plan (ESOP)** program provides incentives to employees of small and medium sized companies to purchase newly issued shares of their employer corporation; eligible employees who purchase shares under a registered ESOP can receive a grant of 15% of the purchase price to a maximum annual grant of \$300; grants for eligible set-up costs are also available to corporations and employee groups; corporations can receive a grant of one-third of eligible set-up costs to a maximum of \$10,000; employee groups can qualify for a grant of one-half of eligible costs to a maximum of \$5,000. For more information on the ESOP program, call collect 416-430-ESOP.

Additional tax of one-half of 1% applies on residential property over \$400,000. Non-residents of Canada pay 20% tax on restricted land (farm land, recreational land, etc.). Land Transfer Tax must be paid to the Land Registrar before registering a conveyance. Provincial Land Tax is a tax collected from landowners in **unorganized territories**. For property assessments for this tax, contact the closest regional assessment office, listed under the Field Operations Branch.

Ontario Tax Credits consist of the Property Tax Credit, the Sales Tax Credit, the Political Contribution Tax Credit and the **Ontario Home Ownership Savings Plan (OHOSP)** Tax Credit. The first two credits are designed to reduce the burden of property and sales tax for people with low to moderate incomes. (People 65 and over are not eligible for these credits but can apply for Ontario Tax Grants, described separately). The Ontario Home Ownership Savings Plan Tax Credit provides incentive for individuals and couples to save toward the purchase of a first home. The above three tax credits are fully refundable. The **Political Contribution Tax Credit** may be claimed by people who made a contribution to a registered Ontario political party, a constituency association or a registered candidate in a provincial election. To claim this credit, there must be provincial tax payable after deducting the Property and Sales Tax Credits.

Claims for Ontario Tax Credits are made when filing Personal Income Tax returns.

Ontario Tax Grants allow Ontario residents, 65 or older, who pay **property tax** or **rent** to claim an annual **Property Tax Grant** of up to \$600 per household. Applications for this **grant** are mailed each year to all Old Age Security (OAS) recipients and previously qualified applicants. Seniors may also receive an annual **Sales Tax Grant** of \$50. Persons turning 65 after mid year who qualify for OAS will automatically receive their Sales Tax Grant and an application for the Property Tax Grant, towards the year-end.

The front cover of the 1990-91 KWIC Index features an artist's rendering of the new headquarters of the Ministry of Correctional Services in North Bay. The photograph on the back cover was taken during the official opening of the building on October 22, 1990 and shows some of the 363 ministry employees now working there.

The North Bay government building is a marriage of the old and new. The structure incorporates the 80-year-old red brick exterior of the former North Bay Normal School and a new five-story glass and steel office building, linked by a dramatic five-story atrium.

The Ministry of Correctional Services and the Ministry of Government Services collaborated on the design and construction of this new northern landmark.
